

Counter-C5ISR Tailored Forces Wargame

July 30, 2026

MEMORANDUM FOR INVITEES

Subject: Counter-command, control, communications, computers, cyber, intelligence, surveillance, and reconnaissance (C5ISR) Tailored Forces Wargame

Summary: On behalf of Navy Surface Warfare Center Crane, Hudson Institute is conducting a half-day wargame on July 30 to explore the composition and concepts of tailored forces for counter-C5ISR operations in the context of a Western Pacific combat scenario. Tailored forces are an element of the US Navy's emerging fleet design that are intended to address challenging operational problems in ways that complement general purpose forces such as aircraft carriers, amphibious ships, submarines, and surface combatants.

The wargame will be held at the Lakeview Conference Center immediately following the AOC Capability Gaps conference on July 30.

Classification: The wargame will be held at the SECRET-NOFORN level. NSWC Crane will use security clearances for the AOC conference to cover this event as well.

Schedule: The schedule for the wargame is as follows:

1215-1245: Working lunch/brief on wargame mechanics (lunch provided as part of the AOC conference or available separately for purchase if not attending the conference)

1245-1400: Game 1

1400-1515: Game 2

1515-1600: Outbrief
